

# SAVE TIME SAVE MONEY SHOP AND BOOK WITH SIREV

By industry estimates, travel agents take roughly 10 to 20 minutes to search, verify availability and find the best prices to book vacation packages and flights using existing tools such as the GDS systems. However, you can address this problem in fraction of the time using the automated search and booking engine provided by Sirev.

## WHAT IS SIREV

SIREV™ is the shopping and booking system used by thousands of travel agents across Canada.

SIREV allows you to search and book travel ITC's, FIT's and now INTERNET FARES from most of the major Canadian Tour Operators and low fare Airlines from a single screen.

Used by the leading professionals since 1992, SIREV™ is, by far, the most efficient search and booking tool in the travel industry.

## YOU GET!

- ▶ Advanced search and price comparison tools
- ▶ Pictures and descriptions of vacations packages
- ▶ E-mail alert system advising you of product availability or price changes
- ▶ Short term contract (1 year only)
- ▶ Minimal number of bookings required for a free system
- ▶ Powerful control center where you can import data to your back office software and manage usernames and passwords
- ▶ Access to private and web fares

All inclusive package | All hotels

Directly on the beach | All categories

Near a golf course | All prices

With a kitchenette

**SEARCH**

View all availabilities and prices on a single screen.

## Shopping with Sirev makes life easier

The Sirev shopping tool allows you to shop for all destinations in a specific date range. Sirev will display all availabilities for the proposed date and will suggest alternative departures for those who have flexible travel dates. Another unique feature in Sirev provides you with an option to select not only the destination and date but also the property; thereby narrowing down your search to display and only the availability and price for the selected criteria and discarding the others.

## Packages Information's

One of the many benefits you will get in using Sirev is the package information from the tour operator's electronic brochure. You will view the pictures of the property, the proposed activities, type of accommodation, the all inclusive features, the early booking information, the location and more. This valuable information will help you find and sell the any package to your clients; yet another feature only available through Sirev.

## Sirev is the perfect tool to find last minute specials

With the Sirev shopping tool it is very easy to find what is available for all destinations for last minute travel. Simply select all countries, select the date, choose the optional criteria's and click. Sirev will display all available packages in pricing order.

That's productivity!

## Sirev shops for best prices

With Sirev you immediately see the prices, taxes and commissions, net or gross (nets are indicated in red). You can query for packages priced \$2000 or less. You can then compare packages offered by the different tour operators for the same properties, same travel dates and the same airlines all on one easy to view screen.

## Shopping for Webfares is easier than ever!

SIREV introduces R+, a new module allowing travel agents to shop, compare and book web fares from the Canadian low fares airlines online. R+ now provides you with a powerful price comparison-shopping tool for your air products. R+ is integrated with the carriers systems allowing subscribers to complete their transactions within the SIREV tool. Earn your full agency commissions as if you had completed the transaction directly in the carrier's own web site.

## Email Alert

For those shopping on fixed budget, SIREV's email alert feature is an invaluable time saving tool. By submitting a simple alert request form, the system automatically notifies agents of price reduction on requested product.

## At Sirev security is a priority

Sirev uses powerful 128-bit SSL encryption, the strongest encryption available, regardless of browser version.
